French - native
English - fluent (B2/C1)
German - basics (A2)

I ALSO LIKE

Trail running, latte art, pixel art, volunteering at the Lausanne Repair Café

Léa Fontaine

Junior Front-End / Web Developer

Hi, I'm Léa — a former coffee-shop supervisor who fell in love with building things for the web. After five years running a busy café (and fixing its booking spreadsheet one too many times) I retrained through an intensive bootcamp in 2023. Today I build accessible, fast React interfaces and I still bring the customer-first mindset from hospitality to every user story.

Experience

Junior Front-End Developer — Pixelgrove Sàrl, Renens

Sep 2023 – today

- Build and maintain React/TypeScript components for 6 client websites (tourism, local retail, a regional ISP).
- Rebuilt the self-service portal of *FibreLéman*, a small fibre internet provider: customers can now check coverage and book an installation slot online (bookings via phone dropped by ~40%).
- Brought Lighthouse accessibility scores from 71 to 96 on the agency's own site.
- Pair-program with seniors, review PRs from our intern, and write Cypress end-to-end tests.

Freelance Web Developer (side projects)

2023 – today · evenings & weekends

Small WordPress and Astro sites for a yoga studio, a bike repair shop and a local choir. I handle everything from the first coffee with the client to domain setup and hosting.

Shift Supervisor / Barista — Café Le Tram, Lausanne

Mar 2018 – Jun 2023

- Managed a team of 7 on weekend shifts, handled scheduling, stock orders and cash reconciliation.
- Created a Google Sheets + Apps Script tool for table reservations, which is how I discovered coding.
- Trained new staff and handled customer complaints (a surprisingly useful skill for client meetings!).

Sales Assistant — Fnac, Annecy (student job)

2015 – 2017

Projects

TrailMate — PWA for trail runners

React, Leaflet, IndexedDB, Service Workers · github.com/leafontaine-dev/trailmate

Offline-first app that loads GPX routes, shows elevation profiles and shares live position with a friend via a short link. Bootcamp final project, voted “best UX” by the jury. ~300 monthly users today.

TableTime — booking widget

Vue 3, Node/Express, PostgreSQL, Stripe

Embeddable reservation widget originally made for Café Le Tram; now used by 3 small restaurants. Handles time slots, deposits and SMS reminders.

Education

Web Development Bootcamp (full-time, 12 weeks) — CodeHarbor Academy, Lausanne

Jan 2023 – Apr 2023

Licence (Bachelor) in Modern Literature — Université Savoie Mont Blanc

2014 – 2017 (completed 2 of 3 years)

Baccalauréat L, mention Bien — Lycée Berthollet, Annecy

2014
