Noémie Keller

Product Owner · Mobile & Self-Care Apps

Hardturmstrasse 204, 8005 Zürich / +41 78 903 26 41 / noemie.keller@example.ch / noemiekeller.example.ch / born 1991-05-09 / Swiss

ABOUT ME

I've taught teenagers algebra, designed interfaces for banks and now own the backlog of an app that 1.4 million people use to manage their mobile subscriptions. The common thread: explaining complicated things simply. I work closely with users, say no often (politely), and measure everything that ships.

EXPERIENCE

2022 — now
Product Owner, My Account app — SwissLink Mobile AG, Zürich
Own the product backlog for the iOS/Android self-care app (2 Scrum teams, 14 people). Replaced the "add data roaming pack" flow and introduced in-app eSIM activation. Team velocity stable, release cadence moved from monthly to bi-weekly.

2020 — 2022
UX Designer → Associate Product Owner — SwissLink Mobile AG
Joined as the second in-house UX designer; ran 60+ usability sessions, then took over part of the backlog for the billing & invoices area.

2017 — 2020
UX/UI Designer — Studio Fjord GmbH, Winterthur (agency)
Design systems and e-banking redesigns for two cantonal banks; wireframes, prototypes, Figma libraries.

2014 — 2017
Mathematics teacher (secondary) — Kantonsschule Limmattal, Urdorf
Taught maths and ICT to 14–18 year-olds; built the school's first Moodle course library.

THINGS I SHIPPED

eSIM in 3 taps (2024) — Customers used to wait for a physical SIM or visit a shop. We built in-app eSIM download with identity check via video-ident. **Result:** 38% of new activations now happen fully in-app; shop visits for SIM swaps down 22%.

Roaming Radar (2023) — Push notification + one-tap data pack purchase when a customer lands abroad, based on network attach events. **Result:** CHF 2.1M additional roaming-pack revenue in year one; roaming bill-shock complaints halved.

Invoice Explained (2021) — Redesigned the PDF bill as an interactive, line-by-line explanation in the app. **Result:** billing-related hotline calls -17%, app rating from 3.9 to 4.6 stars.

TOOLBOX

Scrum	Kanban	User story mapping	OKRs	Jira	Confluence	Figma
Miro	Amplitude	Firebase	SQL (reading, not writing)	A/B testing	Accessibility (WCAG 2.2)	PSPO II

EDUCATION

2019 — **CAS Human-Computer Interaction Design** — OST / HSR Rapperswil

2012 — 2014 — **Teaching diploma (Lehrdiplom) for upper-secondary schools** — ETH Zürich

2009 — 2014 — **MSc Mathematics** — Universität Zürich

LANGUAGES

German / Swiss German (native), French (C1 — grew up in Biel/Bienne), English (C1), Italian (B1)

OUTSIDE WORK

Board member of the Zürich chapter of Women in Product. Weekend climber, bad but enthusiastic cellist. References on request.
